# Homework: CSS Layout

Please submit as homework a single **zip** / **7z** archive holding the source code of all below described problems.

Problem 1.   Website Header

Create a Web page header like the picture below (**100% accuracy is not required**). Use list for the menu. Use text input field and button for the search. Link the Antra logo with https://antra.net. The menu buttons must work (open some URL). The menu must have dropdown functionality on mouse hover.
Problem 2.   Website Footer

Create a Web page footer like the picture below (**100% accuracy is not required**). Use sections for each footer area. Use lists for the menus. The menu buttons must work (open some URL). Embed the Facebook like box using the official FB developer's site.
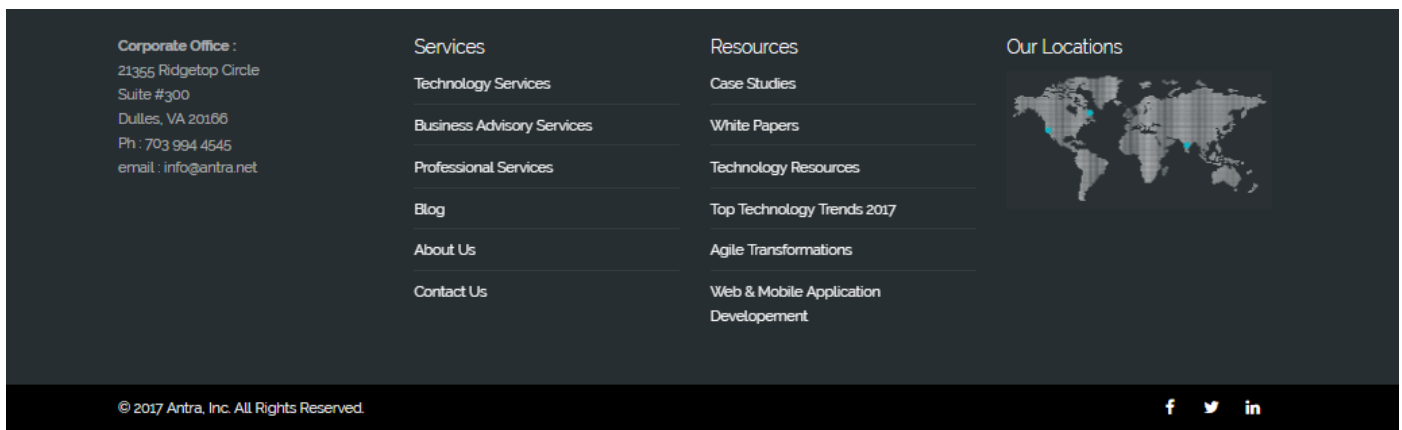

Problem 3.   The Antra News

Create a HTML page like the image below. **100% accuracy is not required.** Use **external CSS** file for the styles. Use floating articles for the news and list for the paging bar.
